

JAPANESE JOURNAL OF PHYTOPATHOLOGY

Vol. 70 (2004)

President : Katsumi YONEYAMA

CONTENTS

Presidential Address

YONEYAMA, K.: Social contributions of plant pathology with special focus on plant disease control 145

Lectures by the Winners of the Society Fellowship

ISHII, H.: Studies on fungicide resistance in phytopathogenic fungi 149

MATSUMOTO, N.: Population biology of individualistic plant pathogenic fungi and its application to disease control 152

TSUCHIYA, K.: Molecular biological studies of *Ralstonia solanacearum* and related plant pathogenic bacteria 156

Abstracts of the Research by the Winners of the Young Scientist Award

KIHARA, J.: Studies on photomorphogenesis in a phytopathogenic fungus induced by near-ultraviolet radiation 159

AKAMATSU, H.: Molecular biological studies on pathogenicity of *Alternaria alternata* tomato pathotype 160

TAKANO, Y.: Molecular genetic studies on infection mechanism in *Colletotrichum lagenarium* 161

Originals

IDE, Y. and TASHIRO, N.: Evaluation of fungicides about residue, rainfastness and efficacy of disease inhibition for the purpose of efficient control to the anthracnose with *Colletotrichum gloeosporioides* on Japanese pear 1

KEMMOCHI, I. and SAKAI, H.: Verticillium wilt of plant species in cabbage field infested with *Verticillium longisporum* and *V. dahliae* 99

NASU, H.: Occurrence of discolored rice grains by sheath rot fungus, *Sarocladium oryzae* 106

OHARA, T., SAWADA, H. and AZEGAMI, K.: Detection of the pathogen of bacterial grain rot of rice from agro-environment using membrane filtration and enrichment culture followed by PCR assay 115

HAKAMATA, T., KATO, K., MAKINO, T. and YAMAMOTO, S.: Weak photon emission from the Japanese black pine inoculated with pine wood nematode 162

TANAHASHI, M., YAMAGUCHI, Y., YOKOYAMA, Y. and OTANI, H.: Black spot disease of European pear, a new disease caused by *Alternaria alternata* (Fries:Fries) Keissler 168

YOSHIDA, M. and YAMAGUCHI, T.: Histological observation and presence of pathogens in diseased roots of melon with root tumor caused by *Streptomyces* sp. 176

KOGANEZAWA, H., TAKAYAMA, T. and SASAYA, T.: Difference in resting-spore formation between crucifer and noncrucifer strains of *Olpidium brassicae* sensu lato 307

Short Communications

DATE, H., KATAOKA, E., TANINA, K., SASAKI, S., INOUE, K., NASU, H. and KASUYAMA, S.: Sensitivity of *Corynespora cassicola*, causal agent of Corynespora target spot of tomato, to thiophanate-methyl and diethofencarb 7

DATE, H., KATAOKA, E., TANINA, K., SASAKI, S., INOUE, K., NASU, H. and KASUYAMA, S.: Sensitivity of *Corynespora cassicola*, causal agent of Corynespora leaf spot of cucumber, to thiophanate-methyl, diethofencarb and azoxystrobin 10

OKUDA, M., KATO, K., HANADA, K. and IWANAMI, T.: Complete nucleotide sequence of L RNA segment of *Melon yellow spot virus* 14

NASU, H.: Seed transmission of sheath rot fungus of rice and its infection site 18

NISHIMURA, N., NAKAJIMA, S., KAWAKITA, H., SATO, M., NAMBA, S., FUJISAWA, I. and TSUCHIZAKI, T.: Transmission of *Cryptotaenia japonica* Witches' Broom and Onion Yellows by *Hishimonoides sellatiformis* 22

IDE, Y., KUROKI, K., TASHIRO, N., MAGOME, H., YOSHIKAWA, N. and OHSHIMA, K.: Production of antiserum to the *E. coli*-expressed coat protein of *Apple stem grooving virus* in citrus and its application for the diagnosis by enzyme-linked immunosorbent assay 123

ARAI, S. and HARADA, Y.: Quince blotch caused by *Mycosphaerella pomi* (Passerini) Lindau 128

FUKAYA, M.: First report of Japanese pear anthracnose disease caused by *Colletotrichum acutatum* and its chemical control 184

YANO, K., ISHII, H., FUKAYA, M., KAWADA, Y. and SATO, T.: Anthracnose on Japanese pear caused by intermediately benzimidazole-resistant strains of *Colletotrichum gloeosporioides* (*Glomerella cingulata*) 314

MAEKAWA, K., SASAYA, T., FUJII, H., ISHIKAWA, K., KANTO, T., IWAMOTO, Y. and AINO, M.: The effect of growth temperature, on big-vein symptom and serological detection of Mirafiori lettuce virus and <i>Lettuce big-vein virus</i> in lettuce	320
Disease Note	
TAKEUCHI, T., KUBO, C. and AOKI, T.: Occurrence of leaf sheath rot caused by <i>Fusarium avenaceum</i> (Fries) Saccardo on rakkyo (<i>Allium chinense</i> G. Don)	323
Abstracts of Papers Presented at	
the Meeting of the Kyushu Division, Miyazaki, September 18, 2003	26
the Meeting of the Kanto Division, Matsudo, September 19-20, 2003	34
the Meeting of the Tohoku Division, Sendai, September 24-25, 2003	48
the Meeting of the Kansai Division, Nara, October 18-19, 2003	56
the Meeting of the Hokkaido Division, Sapporo, October 24, 2003	81
Abstracts of the Papers Presented at the 2004 Annual Meeting in Fukuoka	190
Information from the Society	88, 132
Supplements for the common names of plant diseases in Japan (2)	92
News from the Phytopathological Society of Japan	No. 1, 2, 3, 4
Table of Contents for Vol. 70, 2004	No. 4
